

## Profits Distribution Project

**Bogota DC, 20 February 2019.** --- The Board of Directors of Bolsa de Valores de Colombia, bvc, approved today the profits distribution project of the company for the year end 2018.

The total amount of profits to be distributed among bvc's shareholders will be COP \$33.282 million, equivalent to a dividend per share of COP \$550 and represents an increase by 10% compared to the value distributed in 2017. The ordinary dividends will be paid in cash in two installments, the first one on 30 April 2019 equivalent to 50%, and the remaining 50% in the second installment on 30 August 2019. The dividends to be distributed are considered incomes with no income tax nor capital gains for bvc's shareholders.

The profit distribution project will be submitted for approval of the General Assembly of Shareholders on March 28. **END**
